RONALD BRANDON BENÍTEZ CAÑAS

COMPUTER SYSTEMS ENGINEERING STUDENT AT THE UNIVERSITY OF EL SALVADOR

ABOUT ME

I am a passionate web and mobile developer currently immersed in the process of learning React and React Native. I use technologies like Next.js and Expo to enhance my skills. Furthermore, I am in the graduation process

SKILLS

Languages

- TypeScript
- JavaScript

Frameworks/Libraries

- React
- Next.js
- React Native
- Expo

Tools

- Firebase
- Supabase
- Vercel
- Git
- GitHub

Aptitudes

- Autodidact
- Continuous learning
- Adaptability
- Innovation
- I work under pressure

EXPERIENCE

Administrative page development

Universidad de El Salvador, Second half of 2022

During my social hours, I actively contributed to the creation of a website focused on human resource management. This project facilitated the streamlining of the comprehensive control of absences and permits.

Development of various projects

Universidad de El Salvador, 2021 - 2023

As an integral part of my academic activities, I actively participated in the execution of various projects. Driven by the desire to improve my skills, I ventured into developing a mobile application, which is currently available on the Play Store (@PlayStore).

EDUCATION

Universidad de El Salvador

Computer Systems Engineering (2019 - Present)

Academia Europea

English language conversational level course (Current)

Instituto Nacional de Chinameca

Technical Bachelor in Accounting (2016 - 2018)
